

SDSAR Digest has been Discontinued

We have decided to end the publication of a monthly newsletter. The cost of production and postage ended sending these via regular mail some years ago and we have found that the electronic version has not been widely embraced.

Most of what was found in the Digest is also on the news feed of our website and other regular web pages. Rather than expend our limited manpower on a duplicative effort a decision has been made to focus our resources on expanding our online news feed.
